## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. This is in response to applicant's amendment and argument filed December 18, 2006 in which claims 1-14 and 17-21 are pending.

After further search and thorough examination and in view of applicant's amendment and argument claims 1 through 14 and 17 through 21 are found to be in condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach a ground divider for dividing grounds for the receiver, the transmitter, and the switching mechanism, such that electrical components of the receiver are coupled to a receiver ground exclusive to the receiver, components of the transmitter are coupled to a transmitter ground exclusive to the transmitter, and components of the switching mechanism are coupled to a common ground wherein the ground-divider comprises: a first ground separation elements for isolating the receiver ground from the common ground and a second ground separation element for isolation the transmitter ground from the common ground. These limitation , in conjunction with all other limitations, has not been disclosed, taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
